

2022 DKMB MINOR BASEBALL REGISTRATION

IMPORTANT INFORMATION - PLEASE READ

Registration Policies

Please note the following policies regarding registration with DKMB Baseball:

- In order to keep teams manageable and provide adequate playing time for each participant, the DKMB Association has defined a maximum number of players for each team. After this, new registrants will be placed on a waiting list in anticipation of enough players to form an additional team. If an additional team is not possible, the association will assist the registrant in finding another team to join within DKMB or another association.
- Registrants from within the DKMB Association boundary will be given priority for placement on teams. Registrants from outside of the boundary are definitely welcome and will be placed on teams provided that they have not hit their maximum numbers.
- Persons registering with the DKMB Association (players, parents and guardians) will adhere to defined expectations on respect and fair play.

Division/League Information

Blastball

Blastball is a fun introduction to baseball for younger players new to the sport. Typically run on one night a week, players will participate in an hour of fun games or practices. Each player will be provided with a hat and Blastball shirt. They will need bring a baseball glove. Baseball cleats may be worn, but are not required.

Note: Blastball has traditionally been run on Thursday nights, however this will depend on those involved coaching/running the division.

Hardball

The DKMB Association participates in the London District Baseball Association (LDBA) League for its hardball programs. Participating centres in this league are typically within an hour's drive from the London area, with many closer than this. There are usually 1 to 2 games (a home and an away), and 1 practice per week.

Rookie is the youngest level containing a large number of first time male and female players. A pitching machine is used at this level in order to encourage hitting. Players will require a baseball glove. Baseball cleats are recommended but not required at this level.

Immediate levels above Rookie are coed as well, however the female players usually gravitate toward the Girls Fastball program after the Rookie age.

Select/Competitive Hardball

DKMB participates in the LDBA Select and Competitive leagues which are leagues for hardball players looking to play at a higher level than local league. Many of the Select/Competitive teams are within the London area although some may be up to a 60+ minute drive from London. Schedules often involve 2 games and 1-2 practices per week. Most Select/Competitive teams participate in tournaments during the season and these are at an additional cost to the families.

Girls Fastball

The DKMB Association has traditionally participated in the Community Softball League (CSL) for its local league teams, although a couple of teams at older levels have opted for other local leagues in the area in past years. The CSL operates in the London area and all participating centres are generally within a half hour of London. There are generally 1 to 2 games per week (more often 1) and 1 practice per week.

The initial level for Girls Fastball is the U11 level. Many players at this level are new to the sport. Players learn to perform pitching duties at this level and games are controlled in order to help younger and more inexperienced players.

Fees

Please note: Those wishing to register and tryout for a Select/Competitive team will select the corresponding Local League division during registration with the "Tryout Fee" option. This fee is non-refundable and used towards facility/equipment costs incurred during tryouts.
